OVERVIEW

The Legislature and the Governor have reached a budget agreement for a \$122.5 billion spending plan for 2016-17 contained in the Budget Conference Committee report, SB 826.

The result is a ***Responsible Budget for a Stronger Middle Class*** which has the following key elements:

- Preparing for future economic downturns to avoid budgeting mistakes of the past
- Fighting poverty and assisting seniors and the disabled
- Investing in our future – from early education to higher education
- Cleaning our air and water
- Expanding economic development
- Investing in safer communities
- Oversight

The budget deal is based on the Department of Finance's retrained May Revision fiscal forecast, and makes building robust reserves the number one priority, while also making responsible, targeted new budget improvements to fight poverty, improve early education, expand access to higher education, and to benefit affordable housing.

Preparing for future economic downturns to avoid the budgeting mistakes of the past:

The California economy remains strong, and the state's budget condition remains healthier than any point in recent decades. But economic downturns can come fast, and the impacts can cause significant havoc to the state budget.

As a result, the budget plan follows the call from the Governor and the Legislative Analyst to build robust reserves to protect against future economic downturns and to minimize future needs for cuts to critical services and education or tax increases on the middle class.

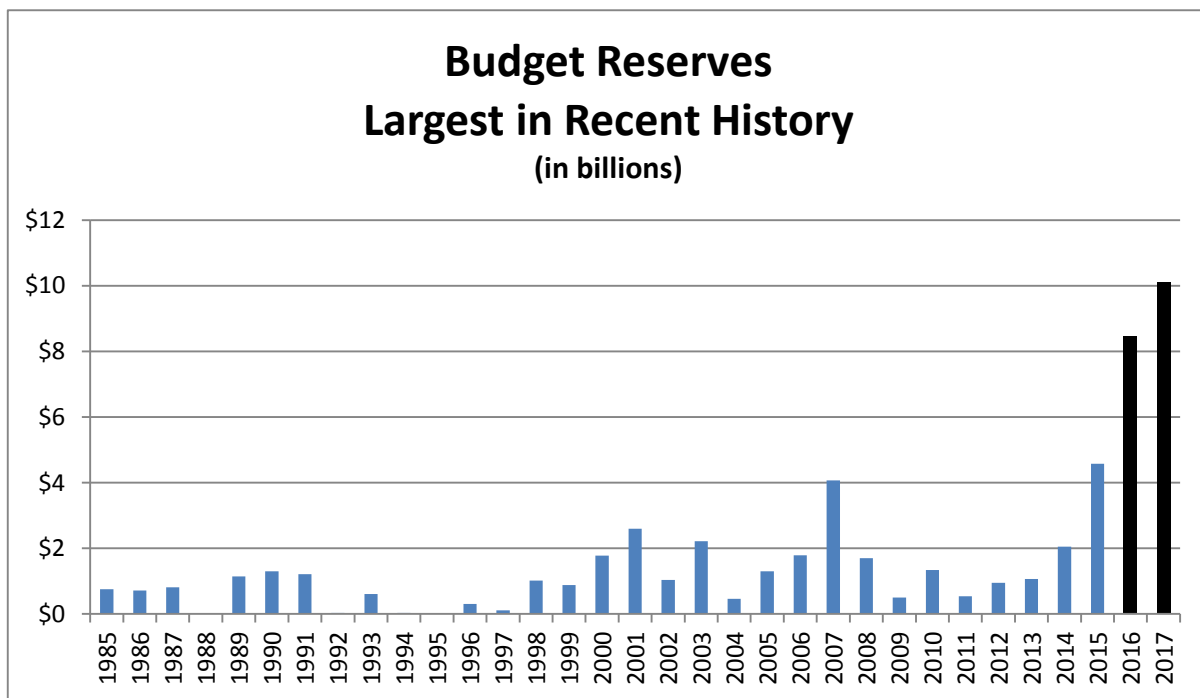

The Prop 2 Rainy Day Fund – first proposed by the Assembly Democrats – is working as proposed. Deposits into the reserve are naturally adjusting to mirror the movements of volatile revenues from capital gains. As a result, the underlying budget is protected

from the volatility and billions of dollars are being saved to help with the next economic downturn.

In addition to the constitutional requirements, the 2016-17 budget embraces the Governor’s proposal for an optional \$2 billion deposit into the Prop 2 Rainy Day Fund. And, the regular reserve will grow to \$1.75 billion, an increase of \$700 million from the budgeted reserve in 2015-16.

Combined, total reserves are \$8.4 billion – matching the proposed reserve in the Governor’s May Revision. Based on the Governor’s multi-year forecast – and if the voters extend the temporary Prop 30 upper income tax increases – the combined reserves will grow to nearly \$12 billion by 2019-20.

The 2016-17 Budget builds the largest reserves in recent history.

Targeted Budget Improvements

The 2016-7budget makes targeted improvements to the Governor’s spending proposals, but maintains multi-year spending at roughly the same level as proposed by the Governor.

These improvements are made within the framework of ***the Responsible Budget for a Stronger Middle Class*** in the following ways.

Fighting Poverty and assisting seniors and the disabled:

- **Repeals the Maximum Family Grant Rule.** Repeals the backward Maximum Family Grant rule that punishes children born into poverty, and does so with no permanent General Fund costs.

- **Increases CSU Funding.** Provides CSU with about \$235 million in additional funding. Of this amount, \$50 million is in one-time funding, with \$35 of that to

assist in time to degree initiatives. In addition, there is \$12.5 million ongoing for additional enrollment growth at CSU.

- **Expands CA Students, Caps Out-of-State Students at UC.** Requires the Regents to adopt a policy regarding out-of-state enrollment. Increases UC funding by about \$190 million, with \$20 million in one-time funding and \$18.5 million to enroll 2,500 new California students.
- **Increases Community Colleges Enrollment and Programs.** Supports two percent enrollment growth at Community Colleges, and provides \$200 million to expand career technical education programs.

- **Invests in Innovation and Research.** Provides \$22 million for Innovation and Entrepreneurship program funding at the UC system, \$3 million for biofuel and byproducts research at Lawrence Berkeley Laboratories, and \$3 million to support research at the Institute of Transportation Studies.
