OVERVIEW

Summary

On May 23, 2006 the Assembly Budget Subcommittees completed their recommendations for crafting the Assembly's version of budget for 2006-07. The totals for the Assembly's version of the budget generally follow those proposed in the Governor's May Revision - but there are a handful of key differences within the detail of the budget. In total, the Assembly's version of the budget projects total General Fund resources of \$103.4 billion, General Fund expenditures of \$100.9 billion, and a total General Fund reserve of \$2.4 billion.

Key elements of the Assembly's version of the budget are as follows:

- ◆ **Total Proposition 98 for K-12 Education.** Provides roughly the same level of K-12 Proposition 98 funding as proposed by the Governor in his May Revise, which is an increase of approximately \$1.8 billion in one-time funds and an increase of approximately \$800 million in ongoing funds. The amount of Proposition 98 funding for 2006-07 reflects what the minimum Proposition 98 funding level would be, if the state had funded education in 2004-05 at a level that was only \$2 billion less than the minimum.
- ◆ **Local Control of School Funds.** Provides a \$1.15 billion block grant for school sites rather than the Governor's proposal for the state to specify exactly how the funds are spent and provides \$300 million in ongoing support for Economic Impact Aid grants, which again provides local control on how to meet the education needs of poor and English learner students.
- ◆ **Access to Higher Education.** Provides a full buyout of fee increases to avoid fee increases UC and CSU and reduces Community College fees from \$26 to \$20 per unit. In addition, the budget provides an increase of \$29 million for Academic Preparation programs for the UC and CSU.
- ◆ **Children's Health Care.** Provides \$45 million for the first of a three step process for providing health care to all children in families under 300 percent of poverty. The first step will be to eliminate enrollment caps on county provided programs.
- ◆ **Foster Care.** Provides \$75 million foster care package to make critical improvements in foster care services throughout the state.

**THE 2006-2007 STATE BUDGET
Subcommittee Report**

- ◆ **Parks Deferred Maintenance.** Provides \$250 million for deferred maintenance projects at state parks. The current deferred maintenance need stands at \$1 billion, and providing a significant investment in budget keeps this "debt" from increasing and placing an even greater burden on future budgets.

- ◆ **Full Funding and Repayment of Proposition 42.** Provides over \$1.4 billion for Proposition 42 and repays \$920 million of the amount suspended in 2004-05.

- ◆ **Rejects the Governor's Latest "Rip-off" Proposal of Transportation Funds.** Rejects the Governor's proposal to shift an additional \$343 million of sales tax on gasoline away from transportation for the benefit of the General Fund. Instead, the Assembly's version of the budget provides these funds for local public transit agencies, intercity rail improvements, and farmworker transportation.

- ◆ **Repayment of General Fund Debts.** Repays \$920 million to Proposition 42, several hundred million dollars to various special fund loans, and over \$1.3 billion in local government and school mandates. In addition the reserve contains a \$1 billion set-aside to repay additional General Fund debts coming due in the upcoming years.

In summary, the Assembly's version of the budget provides a prudent \$2.4 billion reserve, repays debts and makes responsible investments in education, higher education, health and human services, natural resources, and transportation.

The report that follows provides detailed information on each of the areas of the Assembly's version of the budget.

Most of this savings will be one-time.

Child Care and Development

- ◆ **In-and-Out of Market Rates.** Adopts language to designate the rate setting process CDE uses to pay for child care vouchers. The proposed language addresses a long standing concern regarding the way certain providers that serve mostly vouchered families would be reimbursed while also protecting the privacy of families that receive care outside of the state system.
- ◆ **Standard Reimbursement Rate Increase.** Increases the Standard Reimburse Rate for center-based child care by shifting funding allocated for growth into the rate increase.
- ◆ **CARES Training.** Adopts trailer bill language to extend the sunset date, by three years, on a statutory program which allows LA County to use its CARES allocation for family child care homes.

- ◆ **Trustline.** Adopts trailer bill language to codify existing practice to allow payments to license-exempt child care providers while background clearance is being processed by Trustline. The Department of Social Services is developing regulations to 1) prevent payments to license-exempt child care providers that have not cleared the Trustline background check process, and 2) limit retroactive payments to 60 days prior to Trustline registration.
- ◆ **Fingerprinting fee for small child care providers.** Suspends a program that pays the fees the FBI and Department of Justice charge for fingerprinting as part of the Community Care Licensing process for small child care providers.

Department of Child Support Services

MAJOR ACTIONS

- ◆ **Federal Automation Penalty.** Includes \$220 million General Fund to pay the federal Child Support Automation Penalty. Since 1997, California has been subject to substantial federal penalties due to the state's failure to establish a single statewide system for the collection of child support. The Department indicates that this penalty payment in 2006-07 is anticipated to be the last penalty payment required, as CCSAS is anticipated to be sufficiently operational by October 2006 to avoid further penalty assessments.
- ◆ **Child Support County Funding.** Adds \$12 million (\$4 million General Fund) to establish the Child Support Enhancement Fund to provide funding to local child

- ◆ **Compromise of Arrears Program.** Approves \$608,000 (\$207,000 General Fund) to maintain 7.5 of 9.0 expiring limited-term positions for the Compromise of Arrears Program (COAP). This program accepts reduced lump sum settlements from non-custodial parents with arrearages in exchange for their commitment to make ongoing payments.

Department of Aging

■ **MAJOR ACTIONS**

- ◆ **Multipurpose Senior Services Program (MSSP).** Increases funding for the Multipurpose Senior Services Program (MSSP) by \$6 million (\$3 million General Fund). - ◆ **Dependency Drug Courts.** Increases funding for Dependency Drug Courts by \$3 million (General Fund) above the May Revision level of \$2.1 million (General Fund), to expand Dependency Drug Courts to additional counties.
- ◆ **Lawsuit Settlements.** Approves \$5.3 million (\$2.7 million General Fund) and 4.0 two-year limited term positions to comply with the *Conlan v. Bontá* and *Conlan v. Shewry* lawsuits.

K-12 EDUCATION

Department of Education

MAJOR ACTIONS

- ◆ **Total Proposition 98 for K-12 Education.** Provides roughly the same level of K-12 Proposition 98 funding as proposed by the Governor in his May Revise, which is an increase of approximately \$1.8 billion in one-time funds and an increase of approximately \$800 million in ongoing funds. The amount of Proposition 98 funding for 2006-07 reflects what the minimum Proposition 98 funding level would be, if the state had funded education in 2004-05 at a level that was only \$2 billion less than the minimum.¹
- ◆ **COLA Increase.** Provides an additional \$355 million to increase the COLA for K-12 programs, from 5.18% to 5.92%, as proposed in the Governor's May Revise.
- ◆ **Paying Off the State's Mandate Debt to K-12 Schools.** Provides an increase of \$800 million to pay off prior-year mandate claims, for a total of \$959 million in one-time funds to pay off the amount the state owes school districts and county offices of education for their prior-year mandate claims. Mandate claims have accumulated over the past few years, due to the fact that the state has deferred payment on them because of the state's fiscal crisis. The Governor's May Revise included the \$800 million increase, which was adopted by the subcommittee. The subcommittee also approved \$163 million to pay for 2006-07 mandate claims, as proposed by the Governor's May Revise.
- ◆ **New one-time block grant for schoolsites.** Redirects \$1.15 billion in one-time funding from various May Revise proposals into a mega-block grant to schoolsites for one-time expenses, including but not limited to arts and physical education equipment, classroom and laboratory equipment and supplies, instructional materials and planning and implementation expenses related to the creation of small schools. This funding would be distributed on a per-ADA basis (including ROC/P and adult education ADA) to all schools, including charter schools and alternative schools. Schools would be required to spend the funds according to plans approved

¹ In 2004-5, the state suspended the constitutional requirement that a certain amount of state funds go to education, and approved intent language that the level of savings from this suspension be limited to \$2 billion. However, when state funds increased beyond expectations, the amount of savings also increased beyond the expected \$2 billion, leading to claims from advocates that the state has broken its deal to keep the 2004-05 suspension to \$2 billion.

by school site councils, which would have to be developed by June 30, 2007. The Governor's May Revise had proposed to set aside specific amounts of one-time funds for various purposes, such as \$50 million for career technical education equipment, \$250 million for physical education supplies and equipment, \$250 million for arts and music supplies and equipment, etc. The subcommittee chose to redirect these funds into an overall block grant for one-time uses, to allow schools maximum flexibility in using these funds to meet local needs.

- ◆ **Paying off deficit factor.** Provides a \$308.6 million increase in discretionary funds to school districts and county offices of education in the form of an increase to their base revenue limits. This funding was proposed by the Governor's May Revise and adopted by the subcommittee, and is distributed on an equal percentage basis to each district and county office of education. The increase fully restores a COLA to revenue limits that was denied in the 2003-04 fiscal year, due to budget constraints.
- ◆ **Revenue limit equalization.** Provides a \$300 million increase in discretionary funds to school districts in the form of equalization of the rates (revenue limits) used to distribute discretionary funds. This funding level was proposed by the Governor's May Revise and adopted by the subcommittee. This funding is distributed in different amounts to school districts based on the distance between each district's revenue limit and the statewide equalization target. The subcommittee adopted language expressing its intent to adopt a new formula for equalization, as required by current law.
- ◆ **Declining enrollment.** Provides an increase of \$100 million in ongoing funds to help soften the fiscal blow that occurs as a result of declining enrollment in certain districts.
- ◆ **Additional funding for poor students and English learners (Economic Impact Aid).** Redirects \$300 million in ongoing funds from a variety of new programs proposed by the Governor for an increase to Economic Impact Aid, a program that helps address the needs of economically disadvantaged students and English learners. Funding for the program is distributed namely based on the number of economically disadvantaged students and English learners, along with other factors. The funding corresponds to a recommendation by the Assembly Education Committee Working Group on Education Finance. The \$300 million increase to the program amounts to a 50% increase to the base funding level proposed by the Governor in his January 10 budget.
- ◆ **Helping kids pass the California High School Exit Exam.** Provides an increase of \$56 million above last year's funding level for a supplemental instruction program designed to assist 12th graders who have not yet passed the California High School Exit Exam (CAHSEE), for a total funding level of \$76 million. The Governor's May Revise proposed a total funding level of \$53 million for the program. The program was created last year in response to concerns that up to 10% of students in the

THE 2006-2007 STATE BUDGET
Subcommittee Report

class of 2006 may not pass the CAHSEE, passage of which is now a requirement in order to receive a diploma, beginning with the class of 2006. The program is intended to provide \$600 for each 12th grader that had not passed the CAHSEE by the end of 11th grade. The subcommittee also approved a May Revise proposal to increase adult education funding and community college funding by \$10 million each, to accommodate any increases in enrollment that might occur from students that leave high school without passing the CAHSEE but need additional assistance to either try to pass it again or continue with their studies. Finally, the subcommittee approved a May Revise proposal to provide an additional \$7.7 million to pay for three additional administrations of the CAHSEE.

- ◆ **Providing targeted assistance to middle school students at risk of not passing the CAHSEE.** Provides an increase of \$100 million for a new program to provide targeted assistance to the lowest performing 30% of middle schools. The goal of the program is to improve the academic English skills of students at these schools, where the dropout rate is high and students have a lessened chance of ultimately passing the CAHSEE.
- ◆ **Research on best practices for English learners.** Provides \$50 million for incentive grants to districts that agree to participate in a statewide research program to identify best practices to improve the academic skills and English language development of English learners. This funding corresponds to a recommendation by the Assembly Education Committee Working Group on English Learners.
- ◆ **Professional development for teachers of English learners.** Provides \$50 million for new professional development programs to address the needs of teachers of English learners. This funding is in response to research findings in which teachers report receiving very little professional development specifically designed to address the special learning needs of English learners. This funding corresponds to a recommendation by the Assembly Education Committee Working Group on English Learners.
- ◆ **Supplemental instructional materials for English learners.** Provides \$30 million in one-time funds for districts to purchase off-the-shelf supplemental instructional materials that help English learners learn English, so that they can better benefit from the state-approved instructional materials. This funding was proposed by the Governor's May Revise. The subcommittee also approved state operations funding for CDE to administer this funding.
- ◆ **Special Education.** Provides an additional \$100 million in ongoing funds above the base funding level proposed by the Governor. This funding is intended to address districts' reports of the rising costs of serving special education students. In addition, the subcommittee approved \$500,000 for a study of high-cost, low-incidence special education students, where these students are located across the

THE 2006-2007 STATE BUDGET

state, and what the state should do to address any differential in local costs as a result of these students.

- ◆ **High Priority Schools.** Provides an increase of \$200 million for the expansion of the High Priority School grant program, as proposed by the Governor's January 10 budget. The program provides limited-term grants of \$400 per pupil to the lowest-performing 20% of schools, to assist these schools in improving their performance. In addition, the subcommittee re-appropriated \$26 million in unspent one-time funds as one-time rewards to schools that have received High Priority grants and have improved their performance. The one-time funding is intended to help these schools sustain their improvements at the point that the state will stop providing High Priority grant funds to help them improve.
- ◆ **Statewide longitudinal student data system (CALPADS/ CSIS).** Provides an increase of \$31 million (combination of one-time Proposition 98 funds and Educational Telecommunications Funds) to help ensure that districts are technology-ready once the state's longitudinal student data system, the California Longitudinal Pupil Achievement Data System (CALPADS), is ready for operation. Specifically, the \$31 million is for a new "CSIS-light" proposal for districts not currently participating in the California School Information Services (CSIS) project, as proposed in the May Revise. The proposal would provide these schools with the opportunity to participate in a less intensive version of CSIS to provide them with the main improvements in information technology systems that are usually associated with CSIS. The subcommittee also provided an additional \$1 million for personnel to support the implementation of this CSIS light. In addition to the above increase, the subcommittee approved an additional \$15 million in ongoing funds to defray districts' costs of maintaining the individual student identifiers, and as incentives for districts to submit good data to the state to support this system. The latter \$15 million increase was not proposed in the Governor's May Revise.
- ◆ **Federal Reading First funds.** Provides a total of \$157 million in federal Reading First funds to continue an existing professional development program, including an additional \$12 million in carryover to allow currently unfunded schools in participating districts to participate in the program, as proposed by the Governor's May Revise.
- ◆ **Federal carryover for existing programs.** Rejects the Governor's proposal to redirect federal one-time carryover from four different programs to a new program to help program improvement schools. The subcommittee redirected the funding back to the existing federal programs: the federal Migrant Education program, the federal Comprehensive School Reform program, federal Title I and the federal Title I set-aside for program improvement schools and districts.
- ◆ **Libraries.** Includes an increase of \$75 million in one-time funds for districts to purchase library materials and equipment, as proposed by the Governor's May

The subcommittee also approved a control section that addresses concerns raised by a recent audit of the program.
- ◆ **Healthy Start.** Provides \$10 million in one-time funds to revive the Healthy Start program, which provides 3-4-year grants to school districts to set up school-based health programs. The Governor proposed this funding in the May Revision and it was adopted by the subcommittee. The budget includes a corresponding increase in state operations for this program, as proposed by the May Revise.
- ◆ **Funding for Emergency School Repairs Per Last Year's Williams Settlement.** Provides an increase of \$30.4 million in one-time Proposition 98 reversion account funds for the emergency facility repairs for the state's lowest performing schools, as proposed by the Governor's May Revise. This increase means a total amount of \$137 million for this funds, in compliance with the Elizer Williams v. State of California lawsuit settlement of two years ago, which requires that half of all funds in the Proposition 98 reversion account go toward this fund.
- ◆ **Model dropout prevention programs.** Provides \$5 million for the identification and promulgation of model dropout prevention programs.

The augmentation is for ongoing workload, replacement of the Unclaimed Property Information System, additional auditors to identify unclaimed property held by financial institutions and others that should be transferred to the state, and for elimination of the backlog of notices that must be provided to the last recorded owners of the unclaimed property. The state receives property, such as bank deposits and brokerage accounts, that has gone unclaimed despite attempts to contact the owner. The Controller's Office disposes of the unclaimed property and deposits the proceeds in the General Fund. However, property owners retain the right to reclaim the proceeds of their property upon verification of a claim. The additional auditors will increase ongoing General Fund revenues by \$15 million (\$7.5 million in 2006-07). The primary non-retirement state liability is for health and dental benefits for annuitants. The state must identify this future liability to comply with Governmental Accounting Standards Board (GASB) Statement 45. Also added Budget Bill language requiring identification of any significant differences in assumptions or methodology from the estimate of retirement benefits liability by CalPERS and to provide an illustrative example of how much the state's health and dental benefits liability would be reduced if the state switched from pay-as-you-go funding to pre-funding these benefits.

The board estimates that these enforcement efforts will generate \$12.6 million in additional sales and use tax revenues in 2006-07 (\$7.9 million General Fund).
- ◆ **Vehicle Inspection Station Tax Leads.** Approves Governor's Budget request for \$1.4 million (\$811,000 General Fund) and 15.1 PYs (2-year limited term) for the BOE to identify property brought into the state without the payment of applicable sales and use taxes. Department of Food and Agriculture (CDFA) border inspection stations, through which all commercial vehicle traffic must pass. The BOE estimates the program will generate \$7.4 million in additional sales and use taxes in 2006-07, of which \$4.2 million will go to the General Fund.

- ◆ **Curtainwall Repair.** Recognizes \$7.8 million of 2005-06 General Fund savings identified in the May Revision due to a reduced cost estimate for repair of the curtainwall at the BOE Headquarters Building based on the revised cost estimate approved by the Joint Legislative Budget Committee.
- ◆ **Local Sales and Use Tax Calculations.** Adopts revised methodology developed by BOE and recommended by the Legislative Analyst to allocate Sales and Use Tax administrative costs among the state, the local Bradley-Burns tax, and special taxing jurisdictions for an annual General Fund savings of \$5.7 million. Also recognizes \$10 million annual General Fund savings (to Proposition 98 K-14 Education funding) starting in 2005-06 from correcting an error in the calculation of property tax replacement revenue for the "Triple-Flip."

Local Government

MAJOR ACTIONS

- ◆ **Restoration of Local Property Tax Revenue.** Includes, as provided in the Governor's Budget, a General Fund spending increase of \$1.3 billion (for Proposition 98 K-14 Education) in order to replace property tax revenues that were shifted from local governments to schools and community colleges for two years--in 2004-05 and 2005-06. The \$1.3 billion of property tax revenue will be restored to cities, counties, special districts, and redevelopment agencies as provided under existing law.

- ◆ **COPS/Juvenile Justice Grants.** Approves a total of \$242.6 million, consisting of a Governor's Budget request for \$200 million and a May Revision augmentation request for \$42.6 million. This funding level provides an increase of \$42.6 million from the level of support provided in 2005-06 (which included \$26.1 million of carryover local balances). The approved funding restores support for these programs to the initial level of funding provided in 2000-01, when the Juvenile Justice Grants were first established. Existing law requires equal funding for the two programs. The Citizens' Option for Public Safety (COPS) program provides per-capita grants that are allocated at a local level to police departments, sheriffs, and district attorneys. The Juvenile Justice Crime Prevention Act provides per-capita grants to counties to finance juvenile justice strategies to reduce recidivism under local plans developed using multi-agency coordination.

- ◆ **Local Detention Facility Fund.** Does not adopt the May Revision proposal for legislation to continuously appropriate \$40 million for allocation to county sheriffs for jail improvement and maintenance and to replace existing booking fees with a much more limited system of jail access fees. The May Revision proposal replaced a proposal in the Governor's Budget for legislation to reinstate Booking Fee subventions.

Subcommittee Report**

Local governments have submitted more than \$1 billion of claims for reimbursement of these past costs. The State Controller has been reviewing the claims, but funding was deferred in prior years' budgets.
 - ◆ **Mental Health Services to Students.** \$50 million of non-Proposition 98 General Fund money as a set-aside in the Commission on State Mandates budget for funding county mental health services to pupils (AB 3632). - ◆ Adds two staff at a cost of \$180,000 for rail transit safety accident investigation and rail transit security oversight. The PUC indicates that these positions would backfill positions that it has diverted to address increased workload for oversight of rail transit construction projects.
- ◆ Reappropriates \$100,000 originally appropriated in the current year to fund a study of land use planning to promote rail safety, vandalism and terrorism-related safety issues, and emergency response capabilities for rail accidents.
- ◆ **Telecommunications Bill of Rights Decision.** Reduces by \$2 million the administration's request for \$12.8 million from ratepayer funds (including \$2.8 million requested in the May Revision) for implementation of the PUC's March 2006 decision regarding the Telecommunications Consumer Bill of Rights, as follows:

 - ◆ Reduces by \$755,000 (and 11 positions) the \$2 million requested for 29.5 positions to implement the program. Positions requested include 13 bilingual consumer affairs representatives, 8.5 enforcement positions, and 7.5 additional analysts for the telecommunications consumer fraud unit. The reductions

THE 2006-2007 STATE BUDGET
Subcommittee Report

recognize that positions will not be filled immediately and delay hiring investigators until 2007-08, when the new database will be able to generate leads.

- ◆ Approves \$550,000 for other equipment and expenses, including providing enforcement staff access to Lexis/Nexis to assist in enforcement research.
- ◆ **High-Cost A Program.** Augments, as requested in the May Revision, by \$14.3 million of telecommunications ratepayer funds to reflect the final funding level adopted by the commission for the "High-Cost A" Program, which subsidizes basic telephone service to areas with high cost for smaller phone companies.
- ◆ **Teleconnect Program.** Denies May Revision request to augment by \$4.8 million of ratepayer funds due to the commission's failure to implement statutory requirements for coordination with the federal E-rate Program. Both programs subsidize the telecommunications bills of schools and libraries.
- ◆ **Staff Restorations.** Restores 4 positions for support of programs to protect low-income populations and 3 of the 9 existing positions for the Payphone Enforcement Program. The Governor's Budget proposed to eliminate all staff technical support for low-income programs and all staffing for the Payphone Program.
- ◆ **Climate Change.** Eliminates 12 positions and \$1,078,000 (ratepayer funds) requested in the Governor's Budget for implementation of the Governor's Climate Change Initiative. This action is consistent with other actions to place all of the Climate Change proposals in Conference.

Employee Compensation

■ **MAJOR ACTIONS**

Since the Unit 6 salaries are linked to the compensation received by Unit 5, the revised estimate from Unit 5 salary survey increases the costs for Unit 6. Also adds \$7.76 million from special funds for Bargaining Unit 5, reflecting the salary survey for police and sheriff in statutorily specified jurisdictions compared to California Highway Patrol. These costs were previously underestimated by DPA.

**THE 2006-2007 STATE BUDGET
Subcommittee Report**

- ◆ **Expired Bargaining Unit MOUs.** Continues, from the January 10 Governor's Budget, exclusion of funding for all employee bargaining units without completed MOUs. The necessary amounts will have to be added after negotiations are complete.

State Personnel Board

California State Teachers' Retirement System

■ **MAJOR ACTIONS**

- ◆ **State Contribution.** Reduces the state's contribution to CalSTRS' retirement benefits, per the Governor's May Revision, by \$121.5 million due to an error recently discovered in the CalSTRS' accounting system and a revised estimate of teacher compensation for the budget year. The error resulted in the state contributing more than is required by law in fiscal years 2002-03, 2004-05 and 2005-06. Since the General Fund transfers have already been completed for these fiscal years, the \$121.5 million correction is included as an adjustment to the state's 2006-07 transfer from the General Fund. The error also affected the state's Benefit Funding and Supplemental Benefit Maintenance Account in fiscal years 2003-04 through 2005-06.

Employment Development Department

■ **MAJOR ACTIONS**

The target graduation rate is 200 students per year.
- ◆ **Modernization Funding.** Includes an additional \$1 million (\$500,000 General Fund) for armory modernization projects. - ◆ **Yountville Alzheimer's and Dementia Unit.** Includes \$3.8 million (\$3.4 million General Fund) and 75.7 positions to operate a new Alzheimer's and Dementia Unit at the Yountville Home. The new unit is expected to serve 75 current residents identified with these conditions with a specifically designed facility to care for them. Barstow Home closed its nursing facility in 2003 after a series of incidents involving mistreatment of residents. The Department of Health Services authorized Barstow to re-open its skilled nursing facility in April 2005.
- ◆ **Yountville Recreation Building Renovation.** Includes \$8.3 million to renovate the Yountville Home recreation building. This project will improve the functionality of the building and also address hazardous material abatement and fire and seismic code issues.

Budget Adjustment Authority

■ **MAJOR ACTIONS**

- ◆ **Unallocated Reductions.** Includes Control Section 3.45, as proposed in the Governor's Budget. This provision authorizes unallocated reductions in General Fund spending totaling \$150 million (\$50 million in 2005-06 and \$100 million in 2006-07). These one-time reductions are in addition to the \$100 million unallocated 2006-07 reduction provided for in Control Section 4.05 of the 2005 Budget Act (for a total of \$250 million in unallocated reductions).
- ◆ **One-Percent Personnel Reduction.** Modifies the Governor's proposed Control Section 3.45. This provision, as proposed, required the Director of Finance to reduce salaries and wages spending by \$58 million (General Fund) in 2006-07. The May Revision proposed exempting the Department of Corrections and Rehabilitation from the cut, reducing the savings to \$21.5 million. The Assembly action further modified the provision to exempt the tax agencies (the Board of Equalization and the Franchise Tax Board), resulting in a remaining savings of \$17.8 million.
- ◆ **Mid-Year Reductions.** Includes Budget Control Section 4.06, as proposed by the Governor's Budget. This provision allows the Director of Finance to reduce General Fund appropriations if necessary to protect the financial interests of the state. Reductions are limited to twenty-five percent of the affected appropriation and require notification to the Legislature within 30 days.

TRANSPORTATION & INFORMATION TECHNOLOGY

Department of Transportation (Caltrans)

MAJOR ACTIONS

- ◆ **Proposition 42 for 2006-07.** Provides an estimated \$1.4 billion for full transfer of General Fund sales tax revenue on gasoline in accordance with Proposition 42. The transfer will provide \$678 million for the Traffic Congestion Relief Fund (TCRF), \$594 million to the State Transportation Investment Program (STIP), and \$148 million for the Public Transportation Account (PTA). Local governments do not receive a share of the Proposition 42 transfer in 2006-07 due to local governments receiving what would have been their allocation during earlier years when the transfer was suspended. What would have been the local share instead is allocated to the STIP.

- ◆ **Early Proposition 42 Repayment.** Provides \$920 million to repay a portion of the 2004-05 Proposition 42 suspension. The repayment is not required under current law until 2007-08. Under the subcommittee's action, all balances from the 2004-05 suspension that are accumulating interest are repaid, as a result, the repayment includes \$122 million for the PTA that the Governor did not propose repaying early.

**Total \$2.3 billion General Fund
Support for Proposition 42**

(in millions)	2006-07 Prop 42 transfer	Early Prop 42 repayment	Total
TCRF	\$678	\$308	\$986
STIP	\$594	\$245	\$839
Local Streets and Roads	--	\$245	\$245
PTA	\$148	\$122	\$270
Total	\$1,420	\$920	\$2,340

THE 2006-2007 STATE BUDGET
Subcommittee Report

- ◆ **PTA Spillover.** Rejects the Governor's proposal to rip off an additional \$343 million of sales tax on gasoline for the benefit of the General fund. Instead, the budget provides \$275 million for local transit operations, \$48 million for intercity rail capital improvements, and \$20 million for one time grants for farmworker transportation program expansion.
- ◆ **Agricultural Industries Transportation Services.** Provides \$20 million from PTA spillover revenues to expand the successful Agricultural Industries Transportation Services (AITS) that is currently in the Kings County area to other agricultural areas of the state. The AITS program provides safe, reliable, and affordable transportation services for workers in the agricultural industry. The \$20 million will provide one-time startup grants to develop AITS programs that are expected to be self-funded within three years.
- ◆ **Capital Outlay Support.** Increases funding for capital outlay support by \$19.7 million above the Governor's May Revision by reducing the proposed reduction by half. The additional funds were approved in anticipation of increased workload due to the transportation bond that is on the November ballot.
- ◆ **Environmental Enhancement and Mitigation Program (EEMP).** Appropriates \$10 million for EEMP to award grants to local agencies to undertake mitigation projects that are directly related to the environmental impacts of modifying existing transportation facilities or constructing new facilities.
- ◆ **Tribal Gaming Bond.** Shifts anticipated receipt of tribal gaming revenues from the current year to the budget year and reduces the anticipated amount from \$1 billion to about \$850 million. The state has already received \$150 million from tribal gaming revenues, and those funds will be allocated in the current year for transportation purposes rather than securitized for the tribal gaming bond.

Special Transportation Programs

■ **MAJOR ACTIONS**

- ◆ **State Transit Assistance.** Increases support for State Transit Assistance (STA) from the Governor's proposed \$271 million to \$607 million. The increase is due to providing an additional \$275 million from the PTA spillover and \$61 million from the early repayment of Proposition 42 loans. The additional funding is needed for the STA due to the continuing budget struggles of local transit agencies and the added pressure on public transit as a result of the high gas prices.

California Highway Patrol
