OVERVIEW

2020 has been an extraordinary year. In California, the Assembly and Senate worked closely with Governor Newsom to craft a state budget that reflects California's values. This partnership achieved solid results despite the sudden challenges of a global pandemic, a national recession, and a weak federal government response to these and other challenges.

Fiscal Responsibility. By 2019—because of decisions by voters, the Legislature, and two Governors over the past decade—California had accumulated over \$21 billion of reserves for its General Fund, all while providing billions to address state pension liabilities, infrastructure needs, and other important priorities.

2020 demonstrated the importance of this fiscal responsibility. Record reserves allowed the Legislature and the Governor to protect core health, social services, and aging programs, as well as programmatic funding for schools and child care, in the state budget. Stabilizing state funding for most programs helped support a vulnerable economy during a time of uncertainty. Moreover, under the budget's conservative revenue estimates, the state General Fund still keeps on hand about \$11 billion in estimated reserves to address large budget uncertainties facing the state in 2021 and beyond.

In the May Revision, the Governor announced his intention to achieve a 5% reduction in nearly all state department budgets beginning in 2021-22, including reductions in state travel, performance-based oversight of regulatory programs, changes in state vehicle fleets, and efficiencies in technology contracts. The budget authorized the administration to pursue such cost reductions, including contract reductions, eliminations of excess positions, and cancellation or postponement of informational technology projects.

Addressing the Public Health Crisis. Recognizing the important work of the state's local government partners, the 2020 budget allocated about \$2 billion of federal CARES Act funding to cities and counties to address homelessness, public health, public safety, and other service needs related to the pandemic. An additional \$300 million from the General Fund helped local governments address homelessness, building on recent state investments. The budget also allocated federal funding for testing and contact tracing in response to the pandemic. Billions of dollars were allocated for schools to help with the challenges of distance learning and learning loss related to the public health crisis.

In August 2020, additional legislative action extended protections to essential workers who are serving all of us during this challenging time. Among these actions were appropriations totaling \$62.5 million to help ensure that these workers, as well as communities disproportionately affected by the coronavirus, receive essential information about how to protect themselves and their workplace rights.

Boosting Wildfire Preparedness. The budget included more than \$90 million to enhance the state's fire protection capabilities. As a result of this and prior investments, the state hired over 800 more firefighters and six California Conservation Corps crews to bolster firefighting support this year. The budget also provides funding to procure innovative technology that allows the state to better forecast wildfire behavior.

Helping More Working Families With the CalEITC. The 2020 budget continued the Legislature's efforts to expand the California Earned Income Tax Credit (CalEITC)—a boost for lower-income working families who struggle to make ends meet. Specifically, June and August budget trailer bills expanded CalEITC to tax filers using Individual Taxpayer Identification Numbers (ITINs), rather than a Social Security number. More dollars to these families helped support them and their communities during the current economic downturn, especially since undocumented ITIN workers were among those excluded from several recent federal pandemic programs.

Reforming California's Criminal Justice System. The budget included concrete requirements to close two state-owned and operated prisons in the coming years. As the prison population declines, the administration must prioritize closure of two such facilities with relatively high operational costs and costly infrastructure needs. Furthermore, August trailer bills began the multiyear process of responsibly realigning responsibilities of the state's Division of Juvenile Justice to counties and repealed some administrative fees that disproportionately burden persons of color who interact with the criminal justice system.

Planning for Possible Future Federal Aid Package. Under the budget plan, billions of dollars of state payments to schools and community colleges were delayed (deferred) in lieu of programmatic cuts now. University funding was limited, and the budget plan also reflected two years of pay reductions agreed to by almost all state employee units. If congressional Republicans and the President drop their stubborn resistance to a sensible economic stimulus package by October 15, 2020, federal aid coming to the state may help restore some of these cuts and deferrals on a one-time basis. (See "Federal Funding Trigger" section of this report for more information.)

Pursuant to Section 8.28 of the Budget Bill, as amended in Assembly Bill 89, if the state receives an additional \$14 billion of flexible federal funding by October 15, 2020, the following restorations and funding actions would occur with one-time federal funds:

- \$498 million restoration for the California State University budget.
- \$88 million restoration for the Golden State Teacher Grant Program at the Student Aid Commission.
- \$250 million addition to the budget's \$750 million General Fund "backfill" to offset counties' recent loss of realignment sales tax funding.

HEALTH

California Health and Human Services Agency

- Approves of the May Revise withdrawal of the Administration's January budget proposal to establish the Office of Healthcare Affordability to analyze the health care market for cost trends and drivers of spending, enforce health care cost targets and create a state strategy for controlling the cost of health care and ensuring affordability for consumers.
- Defers without prejudice the May Revision request for General Fund expenditure authority of \$197,000 in 2020-21, and \$184,000 in 2021-22 and 2022-23, to support research and analytical tasks associated with the Governor's proposal to establish a state generic drug label.

Office of the Surgeon General

- Approves of the May Revise withdrawal of the Administration's January budget request for \$10 million General Fund to develop a cross-sector training program and public awareness campaign for Adverse Childhood Experiences.

Department of Health Care Services

- Adopts trailer bill that requires that full scope Medi-Cal coverage for individuals who are 65 years of age or older, and who do not have satisfactory immigration statuses or are unable to establish satisfactory immigration status, be prioritized for inclusion in the budget for the upcoming fiscal year, if the Department of Finance projects a positive ending balance in the Special Fund for Economic Uncertainties, for the upcoming fiscal year and each of the ensuing three fiscal years, that exceeds the cost of providing full scope benefits to this population.
- Restores \$54.3 million General Fund to continue all Medi-Cal optional benefits that were proposed to be eliminated in the May Revise, including: adult dental (partial reduction), optometry, optician/optical lab, audiology, incontinence creams/washes, pharmacist-delivered services, speech therapy, podiatry, acupuncture, nurse anesthetists, occupational therapy, physical therapy, and the Diabetes Prevention Program.
- Rejects the May Revise proposal to eliminate \$1.2 billion in Proposition 56-funded supplemental payments to various Medi-Cal providers, but suspends these payments (with the exception of women's health services) on July 1, 2021 unless specified state fiscal conditions exist. These providers include:
 - Physician services - \$389 million
 - Dental services - \$183.8 million

- Women's health services - \$18.7 million

 - Rejects the May Revise proposal to reinstate a pre-2016 Medi-Cal estate recovery policy, which recovered the costs of all health care services from deceased beneficiaries' estates. Includes \$16.9 million General Fund to continue the current policy which recovers only long-term care costs, consistent with federal requirements.
 - Rejects the May Revise request to restore the "senior penalty" in Medi-Cal, thereby continuing to implement the increase in income eligibility for the Aged and Disabled Program to 138 percent of the federal poverty level approved in the 2019 Budget Act. DHCS estimated this proposal would result in General Fund savings of \$67.7 million in 2020-21.
 - Rejects the May Revise request to eliminate the Medicare Part B disregard to determine eligibility for the Aged and Disabled program, pursuant to AB 1088 (Wood, Chapter 450, Statutes of 2019). DHCS estimated this proposal would result in General Fund savings of \$478,000.

to nonhospital 340B clinics. These payments are intended to replace lost revenue from implementation of Medi-Cal Rx, which DHCS intends to do on January 1, 2021.

- Adopts trailer bill that requires DHCS to establish a stakeholder process on or before July 15, 2020, to develop and implement the methodology for distribution of payments from the 340B supplemental payment pool, including the eligibility criteria for receipt of payments, the aggregate amount of pool funding, the criteria for apportioning the funding, and timing of payments.
- Rejects the May Revise proposal to withdraw the January proposal to establish a program that provides hearing aids and related services to children up to 600 percent of the federal poverty level. Implements the program no sooner than July 1, 2021, and assumes \$15 million General Fund in ongoing annual costs beginning in 2021-22.
- Approves and modifies the Administration's May Revise proposal to adjust managed care capitation payments for the period of July 2019 to December 2020, by lowering the gross medical expense portion of the capitation payments for this period due to anticipated lower costs and utilization related to the pandemic, and to implement other efficiencies, while rejecting proposed policies that would result in reduced funding to hospitals, for total savings of \$241.2 million General Fund.
- Restores \$34.3 million General Fund to implement the extension of pregnancy-only Medi-Cal coverage for up to 12 months after delivery for patients diagnosed with a maternal mental health condition, as approved through the 2019 budget.

- Defers without prejudice the Administration's January budget proposal to eliminate dental managed care in Sacramento and Los Angeles, for \$8.9 million General Fund.
- Adopts trailer bill to give counties temporary flexibilities in the operations of the Mental Health Services Act, in response to the COVID-19 Public Health Emergency. Suspends reversion of unspent funds for 2019 and 2020, ensures access to prudent reserves, provides a one-year extension for obtaining final approvals for three-year plans, and increases flexibility on spending within Community Services and Supports.

Includes budget bill Language to direct the Administration to seek more favorable repayment terms from the federal government.

- Adopts trailer bill language to eliminate obsolete requirements for rate reviews for physician and dentist services to align with federal access-to-care requirements. The language would allow review every three years, clarify the review refers to fee-for-service, specify consistency in rate review with DHCS' federally approved access monitoring plan, and remove obsolete references to data sources for the review.
- Approves of four positions and expenditure authority of \$1.2 million (\$605,000 General Fund and \$605,000 federal funds) in 2020-21, \$1.1 million (\$569,000 General Fund and

\$569,000 federal funds) in 2021-22, and \$585,000 (\$293,000 General Fund and \$292,000 federal funds) annually thereafter to assist county mental health plans and Drug Medi-Cal Organized Delivery System programs comply with federal network adequacy requirements for the delivery of behavioral health services.

- Adopts trailer bill language to provide statewide reimbursement to all State Plan Drug Medi-Cal certified providers for the provision of Medication Assisted Treatment services to treat opioid use disorders. Currently, reimbursement is only allowed for methadone and naltrexone. This language allows reimbursement for all FDA-approved medication for the treatment of opioid use disorders, as well as counseling services and behavioral therapy pursuant to the requirements of the federal SUPPORT for Patients and Communities Act.
- Adopts trailer bill language to change the name of the Electronic Health Record Incentive Program to the Medi-Cal Promoting Interoperability Program, to reflect a renewed focus on program and data interoperability, and to extend the sunset date for the program from July 1, 2021, to January 1, 2024.

These resources were previously approved in the 2018 Budget Act in the Department of Social Services through an interagency agreement with DHCS. This request would extend those resources for an additional two years and fund them in the DHCS budget.
- Approves of the withdrawal of the January budget proposal to address departmental data transparency efforts, including HIPAA-compliant data management and reporting, as well as data submissions to the Open Data Portal.
- Approves of the January budget proposal, as modified at May Revision, for oversight of Drug Medi-Cal Organized Delivery System (DMC-ODS) programs, for \$1.2 million (\$575,000 General Fund and \$575,000 federal funds) in 2020-21 to support the External Quality Review Organization contract, which conducts independent review of DMC_ODS counties for quality of care, timeliness of services, and access to services (as required by the terms of the state's 1115 Waiver).
- Approves of the withdrawal of the January budget allocation of \$170 million of prescription drug rebate funds to the Drug Rebate Fund. This fund was created to smooth volatility in prescription drug rebate revenue to the state. Instead, these rebate reserve funds will support the delivery of health care services in the Medi-Cal program.
- Approves, with any changes necessary to conform to other actions, the May 2020 Medi-Cal Appropriation Estimate which includes \$99.5 billion (\$22.7 billion General Fund, \$65.1 billion federal funds, and \$11.7 billion special funds and reimbursements) for expenditures

in 2019-20, and \$115.4 billion (\$23.6 billion General Fund, \$76 billion federal funds, and \$15.8 billion special funds and reimbursements) for expenditures in 2020-21. These figures represent a decrease in estimated General Fund expenditures in the Medi-Cal program of \$298.4 million in 2019-20 and \$2.7 billion in 2020-21 compared to the Governor's January budget.

- Approves of increased federal fund expenditure authority of \$18.5 million in Item 4260-115-0890 and \$124.7 million in 4260-116-0890 to reflect the receipt of federal grant funds for mental health and substance use disorder treatment.
- Approves the May Revise proposal to utilize balances from the following special funds to support the Medi-Cal program: 1) Fund 3156 - Children's Health and Human Services Special Fund (\$100 million); and 2) Fund 3311 – Health Care Plan Fines and Penalties Fund (\$36.6 million).
- Approves of the reauthorization of a quality assurance fee on free-standing skilled nursing facilities that supports the non-federal share of reimbursement increases to these facilities. This fee was originally enacted by AB 1629 (Frommer, Chapter 875, Statutes of 2004), and the current authority for the fee expires on July 31, 2020. DHCS estimates the General Fund cost of implementation of its new fee proposal, along with the associated increased reimbursement rates, will be \$92.8 million in 2020-21.
- Approves, with any changes necessary to conform to other actions, the May 2020 Family Health Estimate which includes \$199.9 million (\$148.1 million General Fund, \$38.5 million federal funds, and \$90.3 million special funds and reimbursements) for expenditures in 2019-20, and \$267.7 million (\$226.8 million General Fund, \$5.1 million federal funds, and \$35.7 million special funds and reimbursements) for expenditures in 2020-21. These figures represent a decrease in estimated General Fund expenditures of \$46.6 million in 2019-20 and an increase of \$32.3 million in 2020-21 compared to the January budget. The 2019-20 changes are primarily attributed to increased rebates in the California Children's Services program and the 2020-21 changes are attributed to increased costs in the Genetically Handicapped Persons Program for base expenditures.
- Defers without prejudice the January budget request, modified at May Revision, for \$467,000 (\$234,000 General Fund and \$233,000 federal funds) annually to support oversight and auditing of the Medi-Cal Dental Program.

- Approves of the May Revise request to modify the resources allocated for the Medi-Cal Eligibility Data System (MEDS) Modernization project, currently overseen by the Office of Systems Integration at CHHSA, for a reduction in the DHCS budget of \$4.6 million (\$402,000 General Fund and \$4.2 million federal funds) to reflect a shift in focus to an enterprise-wide modernization approach, known as Medi-Cal Enterprise System (MES).
- Approves of \$11.2 million (\$1.1 million General Fund and \$10 million federal funds) in 2020-21 to continue the Federal Draw and Reporting (FDR) project, which was part of the California Medicaid Management Information System (CA-MMIS) project. CA-MMIS, MEDS, and the California Behavioral Health Data System Modernization projects are being combined into the new Medi-Cal Enterprise System (MES) enterprise-wide modernization effort. Includes budget bill language to allow an augmentation of up to \$1.1 million of General Fund, contingent upon satisfactory progress of milestones for the project.

- Approves of the withdrawal of the January budget proposal for resources to oversee and manage automation projects related to eligibility and enrollment.
- Approves of a stakeholder request to extend the Medically Tailored Meals Pilot Program authority for an additional year, at no additional cost. The 2017 Budget Act included General Fund expenditure authority of \$2 million annually for three years and trailer bill language to implement a pilot project to deliver a medically tailored meals intervention to Medi-Cal beneficiaries with complex and high-cost health conditions. The program was initially scheduled to be completed in three years, but due to delayed implementation, the program will not be able to complete its full, three-year project before the sunset date in statute.

Office of Statewide Health Planning and Development

- Restores \$33.3 million General Fund to be ongoing, as approved in the 2019 Budget Act, for the Song Brown Program.

- Approves of a \$40 million loan from the Hospital Building Fund to the General Fund.
