**ISSUE 5: POST RELEASE COMMUNITY SUPERVISION**

---

The issue before the Subcommittee is the Governor's proposal to allocate \$11.3 million in limited-term funding to county probation departments.

The proposed allocation would provide the level of support necessary for the supervision of a temporary increase in the average daily population of offenders on Post Release Community Supervision (PRCS). The increase in PRCS population is a result of the additional credit earnings for non-violent, non-sex second strikers ordered by the Three Judge Panel on February 10, 2014.

Under 2011 Realignment, inmates with non-violent and non-serious offenses are released onto PRCS under the jurisdiction of counties. While the initial intent was to retain these offenders on parole until they otherwise would have been released, law enforcement concurs that it is in the best interest of public safety for these offenders to be under the supervision of one jurisdiction for the length of their supervision term. Therefore, offenders eligible for PRCS will immediately begin their supervision under the jurisdiction of county probation.

The requested reduction accounts for the downgrading of 420 General Acute Care Hospital or Intermediate Care Facility licensed beds to Correctional Treatment Center beds.

**ISSUE 17: INCREASED SECURITY COSTS FOR NEW COURT CONSTRUCTION**

The issue before the Subcommittee is the Governor's request to allocate \$1 million to support increased courthouse security costs associated with new court construction projects.

The 2011 Realignment realigned trial court security from the state to the counties. Proposition 30, passed by the voters in 2012, requires the state to provide annual funding for newly required activities that have an overall effect of increasing county costs in this realigned program. Proposed trailer bill language specifies the conditions counties must meet to request additional resources and the process for allocating approved funding.
