**Approved:**

- **\$10 million (General Fund) to address the lack of drinking water access and water quality issues in schools. Funds would be used for water bottle filling station installations, with point of use filtration when necessary, to deliver safe, fresh drinking water to hundreds of thousands of students who do not currently have access to it. This funding would provide approximately 930 bottled water filling stations and administrative costs incurred by the schools and serve approximately 400,000 students. The proposal would allow 3 years to encumber and an additional two years to expend the funds. Also, the proposal includes funding for one position over the course of 5 Years at a cost of \$140,000 per PY, which equals \$700,000.**
  
- **\$565,000 (Safe Drinking Water Account) to fund four permanent positions for data management improvement . This funding will allow the DDW to expedite data collection system improvements, resolve discrepancies between the SDWIS/State database and the federal database, and improve monitoring and non-compliance determinations for districts and LPAs.**
