Issue #65: Supplemental Report Language

ITEM 4265-001-0001—DEPARTMENT OF PUBLIC HEALTH

1. ***State of the State's Public Health.*** On or before February 1, 2019, the Department of Public Health (DPH) shall submit to the health and human services budget subcommittees of both houses of the Legislature a report summarizing key public health statistics in California. The report shall include information on a dozen or so key public health indicators, including available information about these indicators' five- to ten-year trends, for issues that the department considers to be a major existing or emerging public health challenge/crisis facing the state. The report might, for example, provide statistics on such issues as opioid overdoses and naloxone treatments, the number of people infected with sexually transmitted diseases (STDs) and the geographic regions in which STD transmissions are highest, rates of diabetes and/or other chronic diseases among various subpopulations, or recent public health outbreaks. DPH shall present the information from the report at the first health and human services budget subcommittee hearings of the 2019-20 budget process.
