2019 Budget Trailer Bills138

OVERVIEW

The 2019-20 budget package approved by the Budget Conference Committee is one of the most progressive budgets in California's history. In it, the state makes new commitments to address some of the key needs facing the state's 40 million residents. Working with Governor Newsom, the Assembly and Senate are approving important investments in the state's future—starting with improved care and education for our youngest residents.

Moving Toward Universal Preschool and Childcare. Building off the work of the Assembly's Blue Ribbon Commission on Early Childhood Education, California is setting a path to a master plan that ensures comprehensive, quality, and affordable childcare and preschool. This budget funds major new investments in childcare (over 11,000 new vouchers and slots) and state preschool (10,000 new full-day slots). Significant one-time investments in workforce development and facilities in the budget are critical for building the capacity of our early care and learning system. The budget also adopts the Governor's proposal to expand the duration of Paid Family Leave benefits from 6 weeks to 8 weeks, beginning July 1, 2020, and notes legislative intent to move toward the goal of providing a 90% wage replacement rate for low-wage workers using these benefits.

Funding Public Schools. The budget provides record levels of Proposition 98 funding (about \$81 billion in state and local funds) to public schools and community colleges, equal to over \$12,000 per student. To address the real cost pressures facing school districts, the budget provides an unprecedented level of additional funding—over \$3 billion—to moderate districts' future pension cost increases. The budget contains new funding for special education in preschool and K-12.

Access to College. The budget funds around 15,000 new slots for undergraduates at UC and CSU. It expands the College Promise fee waiver program to a second year at community colleges and funds over 15,000 new competitive Cal Grant awards, a major expansion of this program. The budget provides \$50 million to support state and local Child Savings Account programs, which are designed to help families build assets for their children's post-secondary education.

Housing and Homelessness. The budget includes \$500 million in one-time funds for housing-related infrastructure to help boost needed construction, \$500 million (one-time) for a mixed-income loan program through CalHFA, \$500 million in one-time funds to expand the Low Income Housing Tax Credit, \$250 million for planning grants to help local jurisdictions work through the Regional Housing Needs Assessment, and \$650 million in one-time funds to help local jurisdictions address the homelessness crisis.

Health Care. The budget package continues California's progress toward universal, affordable health care for all. It bolsters Covered California plans, including providing additional subsidies to help low-income and middle-income Californians purchase affordable health care coverage.

It expands Medi-Cal to more aged, blind, and disabled seniors, as well as eligible residents who need post-partum mental health services. It approves Governor Newsom's proposal to expand Medi-Cal in order to increase health care access for young adults ages 19-25, regardless of immigration status. The budget restores most "optional" Medi-Cal benefits that were slashed during the last recession and funds student mental health services in schools and colleges.

Social Services. The budget continues the state's progress, initiated last year, toward lifting CalWORKs families from "deep poverty," as well as expansions of the CalWORKs Homeless Assistance Program and needed changes to the program's Earned Income Disregard and asset tests. It provides new funding for senior programs, including investments in senior nutrition and support to implement last year's expansion of CalFresh for seniors on SSI/SSP. The budget also begins to provide more adequate funding for developmental services, including more broad-based rate increases for many services for persons with intellectual and developmental disabilities.

Safe and Affordable Drinking Water. Delayed far too long, California is moving forward to provide safe and affordable drinking water for more residents. About 1 million Californians now lack reliable access to such drinking water. Funded from a long-term commitment of Greenhouse Gas Reduction Funds, this budget provides over \$100 million per year to provide communities with the resources to deliver clean drinking water.

Other Issues. The budget provides tens of millions of dollars more for 2020 Census outreach, extending California's historic investment to help ensure a complete count. The package provides over \$300 million for disaster preparedness, including communications infrastructure, and new funding to help communities affected by disasters. Pending future legislative deliberations, the Budget Conference Committee package includes placeholder trailer bill provisions to change California's tax laws, in response to Governor Newsom's proposals to conform state tax law to recently changed federal tax laws. The budget also temporarily ends the sales tax on diapers and menstrual products.

Budget Resiliency. The 2019-20 budget package assumes an estimated \$19.4 billion in reserves, including \$16.5 billion in the Proposition 2 rainy day fund that was championed by Assembly Democrats. As proposed by Governor Newsom, the package pays off the "wall of debt" (including loans from state special funds) incurred during the last recession. Moreover, the budget makes over \$4 billion of supplemental payments on the state's share of CalPERS and CalSTRS pension liabilities. Reflecting a conference compromise, the budget package modifies the Governor's May Revision proposals to "sunset" certain programs, opting instead to suspend certain programs at the end of 2021 if official estimates show their continuation would result in budgetary expenditures exceeding revenues in subsequent years.
